Due Date:	Week Two - Term One 2022

Bare minimum

*This is work that **MUST** be completed by **ALL** Psychology students over the holidays. The first SAC will include elements of this content.*

Students can refer to Chapter One: Science Skills & Research Methods of Edrolo Units 3&4 Psychology textbook to assist them in responding to these questions.

TASK: Students are to complete **pages 1-8** of the KSS Research Methods Workbook.

Topics include:

- Experimental research
- Developing Research Questions
- Independent and Dependent Variables
- Hypotheses
- Sample and Population

Getting Ahead

For those who want to push themselves. This is Year 12 after all

TASK: Students should do the above work “bare minimum” and then can **read the rest of Chapter 1.**

Specifically, read pages:

- Types of investigations
- Extraneous variables
- Ways of minimizing extraneous variables
- Other methods of data collection (Cross-sectional studies, Case studies, etc.)
- Types of data
- Conclusions and generalisations
- Ethical principles in research

Advanced

For those who are dedicated to achieving their best and are prepared to extend themselves

TASK: Students should do the above work “bare minimum” and the reading from “Getting Ahead” and **complete the rest** of the KSS Research Methods Workbook.
